# SOME REACTION

First Time This Week Market Has Shown Signs of Recession.

BUT DECLINE IN PRICES IS NOT AT ALL SERIOUS

General Feeling Is That Country's Financial Conditions Are Improving.

NEW YORK, Aug. 18.—For the first time this week today's stock market evinced a reactionary tendency with a generally lower level of prices. None of the declines were serious, nor was there any enforced liquidation, but rather of realising for profits, with some attendant bear selling.

The general belief is that political events of the next few days are bound to leave their impression on the securities market. Wall street is devoting marked attention to the conflict in the Republican party.

to leave their impression on the securities market. Wail street is devoting marked attention to the conflict in the Republican party.

The market opened with recessions of a point or more in many of the active issues and soon went lower on unfounded rumors dealing with the alleged serious illness of the best known member of the Standard Oil party. Partial recovery was made from these setbacks, but the list displayed more or less hesitation for the balance of the day and closed at or near the lowest prices.

Advances from middle banking sources were mostly that last month's liquidation had clarified the financial atmosphere in that section.

Further light was thrown on the country's foreign trade situation by the publication of an official statement from Washington concerning imports and customs receipts for the first year under the new tariff. It puts total imports during the twelve months ending July 31 last at \$1,562,621,181, of which slightly less than 50 per cent entered free or duty. Importations during the year were larger than in any corresponding period. Customs receipts for the largest ever shown in any corresponding period. Customs receipts for the largest ever shown in any corresponding period. Customs receipts for the year were \$227,873,672, a larger total than in any other year except 1907, when the total was about \$8,000,000 larger.

London was again a seller in this market to the extent of about 25,000 shares. The Bank of England Increased its proportion of reserves to liabilities to a point well above that of last week, and its total reserves also were larger. The Bank of France reported a trifling loss in gold and a large gain in treasury deposits.

Bonds reflected the tone of the stock market by their irregularity. Total sales.

Bonds reflected the tone of the stock market by their irregularity. Total sales, per value, \$1,870,000.

#### New York Bonds.

There was a quiet trade in wheat and prices most of the day were easy and under liquidation on free country offerings and large receipts, but regained part off the loss on reports of sales of sixty loads for expert at outports, closing \$50 to net higher. September, \$1.08@1.084, closed at \$1.082; December, \$1.112@1.114.closed at \$1.114. Receipts, 22,800 bushels; shipments, 3000 bushels.
